Combining Practical Techniques from History and Composition, Writing History: A Guide to Students, The Fifth Edition, provides a plethora of tips and advice to help students research and write essays for history classes. Now with a non-specific binding that further enhances the usefulness of the book, Writing History covers all aspects of writing about history, including search and research topics, interpretation of source materials, conclusions from sources, and argument-building. Finally, it concludes with three chapters discussing the writing of effective proposals using precise wording and revision. Using numerous examples from works by cultural, political and social historians, writing history is the perfect text for any history course that asks students to do research. In this fifth Canadian edition of Writing History, this student guide continues to provide invaluable advice on researching and writing a wide range of history assignments, with step-by-step guidance on all aspects of the writing process, from choosing a suitable topic to polishing the final project. This new edition is carefully revised and updated with significant changes to ensure that students are instructed in the current practice of historical research and writing. Guidelines for the search, selection and use of electronic resources from academic libraries and the Internet in general are being updated, and the language used throughout the text reflects a change in usage. Writing history also includes a more complete balance of Canadian and non-Canadian examples, as well as a broader representation of different periods of time, places and approaches, making the book relevant not only for students studying Canadian history, but also for students studying a wide range of history courses at different times and places. -- We will love your help.
